Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. **LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;** however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

This template is designed to be used by LEAs who already have completed their LCAP Federal Addendum and received approval from CDE. This template will support LEAs with the review of their LCAP Federal Addendum and revision.

The review and revision of the LCAP Federal Addendum do not need to be submitted to CDE for approval. However, an LEA should have their local Board approve any revisions.

Even if the LEA plans to transfer all of its title funds, it must still address all of the provisions of the title from which it is transferring its funds. The LEA must first meet the application requirements of those funds before it can elect to transfer those funds to another title.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The SMUHSD has explicit goals in our LCAP related to improving the achievement of our English Learners, historically underserved student groups, and engaging family of both these groups of students. Therefore we use our federal funds to support continued professional development in Constructing Meaning to serve all students, but particularly our English Learners focused on our long-term EL students. Our district has had a long term partnership with EL Achieve to support our widespread implementation of CM in all of our schools and we are at a phase of supporting teacher cohorts in specific content development with using strong language and literacy supports. Additionally our federal funds have been used to support programs such as Guided Studies, a Tier 3 intervention for our most struggling students - academically and socially-emotionally. This curriculum for this class has been really refined to include a strong SEL component and professional development on its implementation.

Our district is proud of the work it is doing in Family Engagement. Our federal funds help supplement our program which provides a family engagement coordinator (FEC) at each of our school sites and more recently at the district level as well. Our Family Engagement Program includes running a parent and student conference bi-annually focused on helping families understand the US schools system and accessing educational and community resources. Our family engagement coordinators support families in meeting with staff, during IEPs, and finding ways to be involved in the school community. They support families in accessing school and community resources that will help support their student's success in school - whether that is our free loaner computer or free hotspot program. Additionally our FECs develop and implement family workshops throughout the school year and coordinate various social events to get parents on campus. This program has been extremely successful in increasing the involvement of some of our most marginalized families.

Lastly, our federal funds have also supplemented AVID, and more recently after school programs to get our English Learner students connected to school - one such example is a soccer league which was developed solely for our ELD students.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

All of the programs and initiatives described above support at least 1, but more than 1 of our specific LCAP goals. Federal funds are used to supplement state and local funds already dedicated to implement the initiatives described. Our programs are initiatives are implemented district wide at our sites and supported with professional development and are constantly refined in order to assess for effectiveness in progress towards our LCAP goals each year.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP, it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Our Title III funds have supported adding bilingual instructional aides into our classrooms to support students. Many of our instructional aides are able to students in small groups and one-on-one when needed. We have created level reading libraries to supplemental our ELD instruction with our funds. Additionally, we contract with Ellevation to provide all teachers access to a student information system that has all the academic information they need on their EL students (ELPAC scores, reading levels, grades). We use Ellevation to monitor RFEP students, reclassify students and for teachers to set goals for their students. This is all monitored by our site EL Specialists. It also allows teachers and staffs to create groups of students, communicate about strategies that are working for their EL students in the classroom and to document interventions that have been tried.

2. Address Title III activities that:
 - are focused on English learners and consistent with the purposes of Title III;
 - enhance the core program; and

THIS ESSA PROVISION IS ADDRESSED BELOW:

This past year our district piloted two instructional programs - English 3D and iLit. We will continue to use 3D and will spend this year piloting Links to Literacy and Systematic ELD. We have exposed students to colleges and career paths through field trips, and hosted many guest speakers to help support our students understanding the US educational system. ELD and EL content teachers have been provided time to meet outside of the school day in order to align their instruction and assessments, as well as to develop common assessments so we can accurately measure student progress throughout the year. We have continued to invest in our Newcomer Bridge Program that targets over-aged and under-schooled students so that they can rapidly accelerate their English proficiency and move on to a path of higher education or career path. Lastly, we have implemented programs such as Robotics and a soccer league for our ELD students in order to engage them outside of the classroom and connect them to their school communities through extracurricular activities.
